FREE PRESS

Free Press is an open-access publishing house initiated by Sal Randolph at Röda Sten contemporary art center in Göteborg, Sweden September 16 - October 15, 2006.

For the duration of the project, Free Press will accept all kinds of writing from the public; contributions in any language can be as short as a single word or as long as an encyclopedia and can include any content. All participating manuscripts are published as printed books in the Free Press series, available in the project's library and reading room at Röda Sten, where events and discussions also take place. Additional copies are placed on shelves in local bookstores and libraries. Readers can download books from the website and order them at cost from an internet book printer.
